

The Official Poster for the Circuit des Remparts 2019 and it's Designer Benoit Deliege

The Official Poster for the 80th Edition of the Circuit des Remparts has been designed for us, by the Belgian Artist and car enthusiast Benoit Deliege.

"This picture interests me more than anything. This picture captures a piece of history, a moment, an atmosphere, an ambience, an emotion. Because I was immersed in Francorchamps, as a child and then an adolescent, the subject of the illustration became obvious: draw, then paint the cars racing. The speed becomes the focus. To capture the fleeting moment becomes a necessity. Then the action, I am emotionally moved because motorsport is first of all a story of man, with his joys and his dramas, this life hat can change in a split second. So, I move my brush to the canvas to tell this history....."

Promise kept ! Benoit Deliege has chosen his principal theme "A Monument in a monument". The well known Chestnut Tree, that gives it's name to the hairpin bend. Just one of the various bends to try the most talented of the drivers, or the most reckless !

In the foreground is the exceptional Gladiator, which was exhibited this year at Retromobile, on the Association's Stand.
